BARBUDA (River Bay) – Amazing Barbuda

Duration:	Activity level:	Price:	Transportation:	Min 10 / Max 44
1:30	<i>Moderate</i>	79 €	minibus, boat	participants

A unique and exclusive opportunity to see Antigua's sister island, Barbuda, which is a wonderful place famed for its deserted pink sand beaches, Frigate Bird Sanctuary and crystal-clear waters. It is certainly somewhere very few cruise ship passengers will or can claim to have visited in the Caribbean.

Upon arrival on the jetty in Barbuda you will be transferred to an air-conditioned minibus with your local guide to be taken for a guided sightseeing tour of Barbuda.

After a short drive you will arrive at Martello Tower. This tower, 32 feet high, and its fort of three guns was used as a lookout along the south coast and for sighting in-coming or wrecked ships. This information was then signaled onward to the village of Codrington, several miles north. The fort guarded the main anchorage on the south-western side of Barbuda.

After driving through the small capital town – Codrington - you will board a motorboat and visit the famous Frigate birds sanctuary, located towards the north end of the lagoon in a mangrove locality.

This is the largest Frigate Bird (*Fregata magnificans*) nesting gathering in the world with an estimated 1,500 Frigate Birds.

At the end of the boat tour, return at the jetty in River Bay, where you can enjoy some time at the beach or return onboard.

Please note: The order of the visits may vary.

Useful tips: wear weather-appropriate clothes and comfortable walking shoes and bring a hat, sunscreen and water.

If you plan to stay at the beach at the end of the tour, wear a swimsuit under your clothes and bring a towel.

DOMINICA (Cabrits) - The Indian River by rowboat

Duration:	Activity level:	Price:	Transportation:	Min 8 / Max 30
2:30	<i>Moderate</i>	55 €	minibus, boat	participants

Situated in the center of the town of Portsmouth to the North of Dominica, the Indian River owes its name to the Kalinago people, formerly known as Carib Indians, who settled on its upper banks. The river gushes down the Morne aux Diables mountain range and then meanders gently to the lowlands of Portsmouth where it flows into the Caribbean Sea. As it is below sea level, the water in the lower parts of the river is brackish giving rise to a unique ecosystem of flora and fauna. Some of the species, which include herons, kingfishers, and iguanas, are only to be found in this particular area of Dominica. Many of which are still present after the passing of devastating hurricane Maria. Vegetation continues to grow up and return in full force.

Experienced boatmen will take the oars and row you along the river in slow moving wooden boats so that you can appreciate the great variety of wildlife and plants on the riverbank at your leisure.

See for yourself the places where scenes from "Pirates of the Caribbean" were filmed. Upriver, you will get off the boat for a while to take a short 10-minute stroll through the botanical gardens and visit the renowned 'Bush Bar'. Try the signature rum punch, aptly named "Dynamite", a singularly potent brew. There is lots to see so don't forget to take your camera.

Afterwards you will get back into the rowing boat for a trip down river where you will board your buses and return to the ship..

Please note: There is a 15-minute drive between the port and the Indian Rivier, with a driver-guide. River local guides will take over your driver guide on the rowboat. The boat trip will be preceded by a security briefing. Rowboats can accommodate 8 passengers. You will spend approx. one hour up and down on the river. Guests are advised to bring a hat, sunscreen, insect repellent and water.
