MYKONOS - Time at leisure (no shore excursions organized)

A charming little harbor, lined with cafés and colorful fishing boats, greets the eye and provides a scenic back drop for the maze of narrow cobble stoned streets that lies behind. On either side of the streets, you will find picturesque, whitewashed houses, local handicraft shops, boutiques, waterfront cafés and of course the island’s mascot: the pelican. Don’t be surprised if you encounter one of them wandering around town alongside of you.

Two of the best places to visit are Little Venice, located on the south-western side of town, with its waterfront cafés and spectacular views of the sunset, and the famous Windmills (adjacent to Little Venice on Kato Myli Hill), one of the landmarks of Mykonos. Take the time to explore this captivating island; you won’t have to venture very far before you come across beautiful beaches and coves with azure blue water lapping on the shore.

History & Culture | Unesco | Sightseeing

Your tour begins with a scenic tender ride through the caldera to Athinios harbour, where local guides and buses await to take you to the site of Akrotiri, one of the most important prehistoric settlements in the Aegean.

In the last quarter of the 17th century BC, a series of earthquakes followed by an eruption forced all the inhabitants to leave. The volcanic material covered the whole island and the city itself. These materials have protected the buildings and their contents down to the present day, just as in Pompeii.

Wonderful frescoes have been found in some of the houses, as well as many vessels and utensils of daily use.

After your guided tour of the site you will continue on and after a short drive you will arrive in Oia. With your guide you can take a short walk around the village of Oia or spend some time on your own. You will also have the opportunity to enter the workshops of the artists, meet them and talk to them. See the architecture and typical Santorinian style of houses and churches.

Return to the coach for a short drive to Fira, the attractive capital of the island built on the top of the caldera.

At the end of the tour you will have free time to explore Fira on your own and browse the shops and boutiques before you take the cable car (ticket included) to the small harbour of Skala where the tenders will take you back to the ship.

Please note: This walk involves moderate walking on uneven ground with some inclines and steps.

Dress for the weather, wear comfortable walking shoes and bring a hat and water.

Estimated travel times: 30 minutes between Athinios pier and Akrotiri; 50 minutes between Akrotiri and Oia; 30 minutes between Oia and Fira. The order of the visits is subject to change.

The ticket for the cable car between Fira and Skala harbour is included in the tour. There may be some queuing at the cable car station. Please check the timetables of the tenders from Skala to the ship on the Daily Program.

Travel back in time on this panoramic tour of Corfu. The tour starts in Kanoni, one of the most beautiful areas of Corfu, which got its name in 1798 during the French occupation of the island. One of the cannons from that period is still standing on a hill. We stop here to admire the breathtaking view of Mouse Island, also known as Pontikonisi, and the ancient monastery of Vlacherna. This famous landmark is one of the most photographed spots in Corfu.

The small islet at the entrance to the Halkiopoulos lagoon has a Byzantine chapel dating from the 11th century. Legend has it that Mouse Island was the ship that brought Odysseus back to Ithaca, and that Poseidon, the god of the sea, turned it to stone in a fit of rage.

After leaving Kanoni, the excursion continues with a panoramic drive to Corfu Old Town and Spianada Square. This UNESCO World Heritage Site has so much to offer visitors: medieval streets, two Venetian fortresses, a magnificent palace and beautiful gardens.

There will be a guided tour of the main square and the old Orthodox church dedicated to St Spyridon, the patron saint of the island, which has a priceless collection of icons. During the tour your guide will tell you about the history of Corfu. Afterwards, you will have some free time to stroll through the arcades of Liston Piazza, go shopping or try some local specialities at one of the restaurants in the town centre before you return to the cruise port.

Please note: This tour involves extensive walking over cobbled, uneven surfaces.

The Old Town of Korčula is a masterpiece of architecture and town planning, where everything is built according to a plan: the layout of the streets is reminiscent of a fishbone, to take advantage of the different winds to clear the air. Meet your guide at the pier for a walking tour of the old town. Visit the Cathedral of St. Mark, which is probably the best evidence of the artistry of Korčula's famous stonemasons and the island's excellent stone, which has been used in buildings all over the world. The tour continues to the Bishop's Palace, which displays the hidden treasures of the town (sketches and drawings by Leonardo da Vinci, Michelangelo, Raphael, Tiepolo and many others), and the Town Museum, which contains exhibits from the Greek and Roman periods, as well as objects from the island's maritime history.

Finally, visit the charming Church of All Saints, which houses an impressive collection of Byzantine icons.

Korčula is also known as the birthplace of Marco Polo, who is said to have lived in the house where he was born (seen from the outside).

Board a coach and drive to the rural village of Lumbarda, where the Milina-Bire family has lived for centuries. In the past they produced wine for their own use, but half a century ago they decided to use the knowledge they had acquired over the years in the cultivation of grapes and vines and set up their own small winery. Now they have fully automated systems for making wine, while still trying to keep some of the old-fashioned way of making wine. On arrival, guests are taken to the winery to see how wine is made today, before entering the fascinating wine cellar, which is beautifully decorated with the wine making tools of the past. Here your host, the owner of the winery, will tell you a story about wine production and the history of the Bire family who produce wines in the village of Lumbarda.

Please note: This tour involves extended walking on cobblestone and uneven surfaces with inclines and many steps. Dress for the weather, wear comfortable walking shoes and bring a hat and water. Appropriate attire is required when visiting religious sites (no bare shoulders or shorts are allowed).

History & Culture

Korčula is organised around its main artery according to a "fishbone" plan drawn in the 13th century. It is believed that the great traveller and explorer Marco Polo was born in Korčula in 1254. Visit the Bishop's Palace (Abbey treasury), a museum of religious art with fragments of archaeological interest, icons, Croatian and Italian Renaissance and Baroque art, reliquaries, liturgical vestments. The most important Gothic work is the polyptych "Our Lady with Child and Saints" from 1431, three alabaster reliefs from the 15th century and an ivory triptych of Queen Mary Stuart from around 1600. You will then visit Saint-Marc Cathedral, the most important building in the old town. It was built in the 15th century in a Gothic-Renaissance style on the site of an older church by local stonemasons and craftsmen. The altars are decorated with paintings by Jacopo Tintoretto. The town museum is housed in the Gabrielis Palace - an outstanding example of 16th-century residential architecture. Discover Korčula's vibrant history, cultural and economic milestones from antiquity to modern times. See the huge staircase leading up to the Revelin Tower, a large gate dating from the 14th century. Finally, you can follow your guide back to your boat or complete the tour on your own.

Your guide will meet you at the pier and you will walk together to the kayak station. After a safety briefing and instruction in paddling techniques, you will be ready to set off on your sea kayak adventure along the beautiful Hvar coastline, exploring the small islands that make up the famous Pakleni Archipelago. The name is sometimes translated as Hell's Islands (pakleni means hellish), but its origin is more likely derived from "paklina", an archaic word meaning tar or pine resin, the substance used to coat local boats. Far from being "hellish", the islands are a little slice of heaven, offering unspoilt scenery, thick pine forests that provide shade even on the hottest summer days and crystal blue waters. The kayak expedition takes us past bays and narrow straits to small pebble beaches where you can swim, snorkel and relax.

Please note: This is a very active tour and is only recommended for guests in very good physical condition. Participants must be able to swim. This tour is not suitable for guests with reduced mobility, back or neck issues and pregnant women. Min age: 6 years (minors must be accompanied by an adult). Max weight: 264 lbs / 120 kg. The best way to get to know the town is to take a walk through the numerous narrow streets of the old town. The narrow and high houses and the streets that wind through the old town like a labyrinth are a typical example of medieval architecture. Emblems on the facades of the houses and on the doorsteps speak volumes about the former way of life - that of fishermen, farmers, blacksmiths, etc. In the centre of the town is the town square with the Municipal Loggia, where declarations were read, agreements were made, business was done and fun was had. Continue on to enjoy a snack of traditional Croatian products, including extra virgin olive oil. This high quality oil is made from olives that have only been mechanically processed. After the tour, the guide will accompany you back to the pier where the tour ends and you will have the opportunity to explore this medieval town on your own.

Please note: This tour involves moderate walking over uneven surfaces, with inclines and some steps to negotiate. Dress for the weather, wear comfortable walking shoes and bring a hat and water.
