History & Culture | Unesco

The first stop on the tour is Monte Toro; at 357m it is the highest point on the island and the views are absolutely breathtaking, on a clear day you can see Mallorca to the south-east. The site is considered the spiritual centre of Menorca and has been a place of pilgrimage since the 13th century. The remains of an old Augustinian monastery are still visible and there is a small church with a carved wooden image of the Virgen del Toro, the patron saint of Menorca. Legend has it that Monte Toro takes its name from a bull (el toro) that led a group of monks to a statue of the Virgin Mary carved into the rock face.

The route continues to Torralba d'en Salort, a prehistoric Talaiotic settlement dating from 2000-1000 BC. The taula is made up of two rock slabs, one on top of the other, forming a "T". The monument is more sophisticated than many other prehistoric constructions and is generally believed to have been used as a sanctuary. The taula is unique to Menorca and, despite the shared Talayotic heritage, there is nothing comparable in Mallorca.

Afterwards, the coach will return to Mahón and the participants will leave the coach and walk through the 18th-century town (mostly downhill) to reach the pier.

Please note: This tour involves moderate walking (approx. 2.5 hrs) over uneven surfaces and some inclines.

Dress for the weather, wear comfortable walking shoes and bring a hat and water.

Estimated driving times: 30min between the cruise pier and Monte Toro; 30min between Monte Toro and the archeological site; 20min between the archaeological site and Mahón.

Continue to the magnificent 13th-century La Seu Cathedral, which dominates the city and is one of Europe's finest examples of pure Gothic Revival architecture. After exploring the interior of the cathedral, see the adjacent Almudaina Palace (no internal visit). This austere palace was originally an Arab fortress and later the palace of the kings of Mallorca. Before returning to the cruise port, you will stop to see the unique style and architectural engineering of the city's famous bullring.
